

Wine i-QT

TOASTED PURE OAK TANNIN

FOR AN INTELLIGENT TANNIN MANAGEMENT IN ALL WINES

► The natural Solution for tannin-management in all wines

► Properties

- Made of 100 % heart-wood from european oak.
- Gently toasted before extraction.
- Easy soluble, very smooth and complex tannin.
- Supports the reductive potential and flavour development.
- Natural sensory properties due to pure oak tannin.
- Also suitable as a replacement and supplement for the expensive wooden insert.

► Dosage

Wine i-QT can be used in 2 stages of winemaking. After fermentation and for fine-tuning before bottling. The maximum dosage depends on the winemaker's personal preferences. We recommend that the total quantity of all additions does not exceed **5 g /hL** of wine. **Wine i-QT** should always be added **before** the SO₂ addition/adjustment. There should be an interval of **1 day** before the SO₂-addition.

<i>Wine-type</i>	<i>Young-wine stage</i>	<i>Before bottling</i>
Burgundy/ Red wines	1 - 5 g /100 kg / 1 hL	0,5 – 1,5 g /hL
Light white wines	0,5 -3 g /100 kg / 1hL	0,5 -1 g /hL

► Practical application

- Dissolve the determined quantity of **Wine i-QT** in water or wine at approx. 35 - 40 °C (95 - 104°F).
- Acidify the suspension with 5 -10 g tartaric acid / 1 litre, stir well and pre-dissolve for approx. 30 minutes.
- Ensure even distribution in the must or wine.

► Additional information

We recommend different dosages depending on the wines in order to achieve optimum results. Preliminary tests should always be carried out over a period of 3 - 6 days and should be checked by sensory analysis.

► Shelf life and storage

Wine i-QT is supplied in a 1 kg airtight and resealable tin. The shelf life at room temperature is 48 months. Cans that have been opened must be resealed tightly and used within six months. Protect from foreign odours and light

► Note

Wine law regulations must be observed!
