Specification Component	380 Liters	550 Liters	750 Liters	1,050 Liters
1. Sizing, Dimensions & Material Specifications				
Nominal Capacity	380 L	550 L	750 L	1,050 L
Tank Diameter (Ø)	1,000 mm	1,000 mm	1,000 mm	1,200 mm
Tank Height h1 / Total Height H	653 mm / 653 mm	903 mm / 903 mm	1,153 mm / 1,153 mm	1,153 mm / 1,153 mm
Tank Top Rim	Open tank top with strengthening rim, width approx. 42 mm			
Shell Material / Finish	AISI 304 Stainless Steel, Surface IIId (2R), Marbled Outside			
Bottom Material / Finish	AISI 304 Stainless Steel, Surface IIId (2R) Inside and Outside			
Tank Bottom Design	Flat tank bottom			
Tank Base / Legs	Welded-on forklift rack (120 x 60 mm), stackable with stainless steel tube feet			
2. Standard Included Equipment (Factory Package Line-Item Cost Breakdown)				
Base Tank Casing & Construction	€1,360.00	€1,450.00	€1,520.00	€1,790.00
Forklift Rack & Stackable Tube Legs	Incl. at €0.00	Incl. at €0.00	Incl. at €0.00	Incl. at €0.00
Standard Base Tank Total (excl. shipping)	€1,360.00	€1,450.00	€1,520.00	€1,790.00
3. Optional Accessories & Add-on Hardware (Taps, Valves & Top Accessories)				
Optional Extras	None	None	None	None
Optional Accessories Sub-Total	€0.00	€0.00	€0.00	€0.00
Full Setup Total (Base Tank + All Optional Accessories excl. shipping)	€1,360.00	€1,450.00	€1,520.00	€1,790.00
Cost per Liter (Base Tank Only)	€3.58/L	€2.64/L	€2.03/L	€1.70/L
Cost per Liter (Full Setup)	€3.58/L	€2.64/L	€2.03/L	€1.70/L

Key Winemaking Insights & Sizing Decision Guide:

- Pressureless, Stackable & Transportable Design: All Speidel KO models are open-top transportation and tipping tanks engineered for pressureless operation, material handling (pomace/grapes), and cellar logistics.
- Forklift & Stacking Integration: Built with an integrated 120 x 60 mm welded-on forklift rack and stainless steel tube feet, allowing them to be safely stacked up to a maximum of 2 filled tanks.
- Economy of Scale: The cost per liter drops dramatically as volume increases—from €3.58/L for the 380L model down to €1.70/L for the 1,050L unit.
- Footprint Efficiency: The 380L, 550L, and 750L models share the exact same tank diameter (1,000 mm). Moving from 380L to 750L (+97% capacity) expands vertical height only (from 653 mm to 1,153 mm) without occupying extra floor space.
